1. ExampTo Insight: Configuration Guide

1.1. Purpose

This configuration guide provides the information for Configuration Manager of the ExampTo Insight application to configure SAP settings according to the business need.

1.2. Scope

The document scope comprises the following main sections describing a required SAP configuration for:

1. Initial Settings, required as prerequisite for proper functioning of all the ExampTo Insight modules, including basic settings, basic activation etc.
2. Configuration for ExampTo Insight modules:
    - Reservations
    - Incidents
    - Work Orders
    - Space Management
    - Reporting

The values for configuration settings are provided in exemplification of trial configuration, while during real configuration process the data should be actual and entered according to the current project need.

1.3. Target Audience

The target audience of this guide is Configuration Manager who has appropriate rights in SAP system and approproite skills to perform the configuration described further in the document.

2. Initial Settings

2.1. Basic Settings

2.1.1. Activate Real Estate Extension

Procedure

1. Access the activity using the following navigation options:

Transaction Code	**SPRO**
IMG Menu	*SAP Customizing Implementation Guide → Flexible Real Estate Management (RE-FX)→ Basic Settings → Activate Real Estate Extention*

2. On the *Change View "Central Customizing for ExampTo Insight product": Details* screen, make sure the entries are as follows:
